

ANTONIO ROCAMORA MANTECA

Murcia, Spain | [linkedin.com/in/antroc](https://www.linkedin.com/in/antroc)

SUMMARY

Senior Data Engineer with 16+ years of experience designing enterprise data platforms across banking, insurance and manufacturing. Leads a 70+ person distributed team (Spain and Mexico) at NTT DATA as the firm's top technical specialist in Data Integration. Combines hands-on engineering with technical leadership and process governance: designs scalable data architectures, drives the adoption of generative AI into engineering and management workflows, and defines quality standards aligned with frameworks such as CMMI. Equally comfortable building a metadata extraction engine in Python, defining functional requirements for an AI-powered compliance tool, or advising leadership on migration strategy.

PROFESSIONAL EXPERIENCE

NTT DATA Europe & Latam

Technical Senior Expert Specialist

Murcia, Spain

January 2025 – Present

- Lead technical authority for Data Integration, Big Data and AI-augmented data engineering on the BBVA account, directing a 70+ person team distributed across Spain and Mexico.
- Designed and delivered an end-to-end PowerCenter migration accelerator: a Python-based metadata extraction engine that parses PowerCenter XML repositories into structured JSON with field-level data lineage, combined with an AWS serverless pipeline (Lambda, S3, SQS, Bedrock) that uses generative AI with retrieval-augmented generation (RAG) to produce validated PySpark and Redshift SQL code; delivered as a proof of concept to BBVA achieving 100% automated code generation with no manual corrections.
- Direct the implementation of generative AI across project processes for BBVA, including code generation, automated testing, technical documentation and project management.
- Act as product owner for an AI-powered CMMI compliance auditor, defining functional and technical requirements for automated maturity-model assessment.
- Define architecture standards, advise leadership on technical strategy and evaluate emerging technologies for integration into enterprise data workflows.

NTT DATA Europe & Latam

Technical Expert Specialist

Murcia, Spain

February 2023 – January 2025

- Led large-scale data engineering initiatives for BBVA, managing a team of specialists designing and implementing ETL solutions at scale.
- Spearheaded migration of legacy systems to cloud environments, reducing operational costs and improving data reliability.
- Drove hyperautomation initiatives within the team, developing process automation solutions to streamline operations.
- Trained engineers in modern ETL methodologies and cloud-native architecture patterns, promoting a culture of continuous learning.

NTT DATA Europe & Latam

Centers Leader Specialist

Murcia, Spain

November 2020 – February 2023

- Directed multiple data integration projects for BBVA, ensuring timely delivery of high-quality solutions.
- Acted as main liaison between technical teams and stakeholders, aligning data strategies with business goals.
- Introduced process automation strategies to minimise errors and enhance operational efficiency.
- Mentored junior engineers in ETL methodologies, fostering knowledge sharing within the team.

BBVA IT España

Business Intelligence Analyst

Madrid, Spain

November 2018 – November 2020

- Provided technical and functional support for critical banking applications as part of the Service Level Agreement team.
- Collaborated with cross-functional teams to design and implement data pipelines.
- Contributed to BI projects using Informatica PowerCenter and MicroStrategy.

Orange Business

Madrid, Spain

Senior Business Intelligence Consultant

September 2014 – October 2018

- Technical reference for Informatica PowerCenter at Orange Spain, ensuring efficient and optimised ETL workflows.
- Led the design and implementation of data integration solutions tailored to client needs, ensuring reliability and scalability.
- Contributed to dashboard development using MicroStrategy and QlikView for stakeholder decision-making.

CGI

Madrid, Spain

Business Intelligence Consultant

February 2012 – September 2014

- Designed and developed ETL workflows on Informatica PowerCenter for BBVA and ISBAN, integrating Oracle databases and ensuring seamless integration of complex datasets.
- Built MicroStrategy reports and dashboards on top of the integrated data, supporting business reporting needs for banking clients.
- Conducted data analysis to identify trends and optimise data pipelines.
- Streamlined data migration processes during critical system upgrades, minimising downtime and preserving data integrity.

NTT DATA Europe & Latam

Murcia, Spain

Business Intelligence Programmer

September 2010 – January 2012

- Developed ETL processes for major clients including BBVA, ISBAN and Allianz.
- Produced detailed documentation to standardise workflows and ensure knowledge transfer within the team.

IDRed

Alhama de Murcia, Spain

Telematic Engineer (Internship)

July 2010 – September 2010

- Contributed to a fibre-optic network installation project for security camera interconnection in irrigation infrastructure, assisting with planning, configuration and deployment.

EDUCATION

Universidad Politécnica de Cartagena

Cartagena, Spain

Bachelor of Engineering, Telecommunications Engineering

September 2010

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Cloud Data Integration for PowerCenter Developers, Foundation Level Certification (Informatica)

Certifications in Progress (expected September 2026)

- AWS Certified Data Engineer – Associate
- Claude Certified Architect

TECHNICAL SKILLS

Data Integration & ETL	Informatica PowerCenter, AWS Glue, custom Python pipelines
Big Data & Processing	Apache Spark (PySpark, Scala), Amazon EMR
Cloud (AWS)	Lambda, S3, SQS, Bedrock, EMR, Redshift, Glue
Databases & SQL	PL/SQL, Oracle, Amazon Redshift
Programming	Python, Scala, SQL, PowerShell
GenAI & LLM	Generative AI integration, retrieval-augmented generation (RAG), prompt engineering, AI-augmented engineering workflows, MCP
BI & Visualisation	MicroStrategy, QlikView
Process & Quality	CMMI, hyperautomation, technical governance

LANGUAGES

Spanish (native), English (full professional), French (professional working)
